SPECIAL WASTE CONTAINERS

SMOKE

Range of multifunctional containers: free-standing or wall-mounted ashtray; ashtray with integrated wastepaper bin, suitable for internal and external uses.

TECHNICAL CHARACTERISTICS

Material:

- zinc-plated steel plate coated with epoxy powders free of heavy metals

Process:

- laser cutting of plate, cnc press-bending, coating, assembling

External container:

- weldless box-shaped holding structure
- stainless-steel grid to put out cigarette stubs
- arranged for fastening to floor

Internal container:

- square structure of zinc-plated steel plate, with handle; two separate containers for ashtray and wastepaper bin, where required

Emptying:

- opening in front for removal of internal containers

Variants:

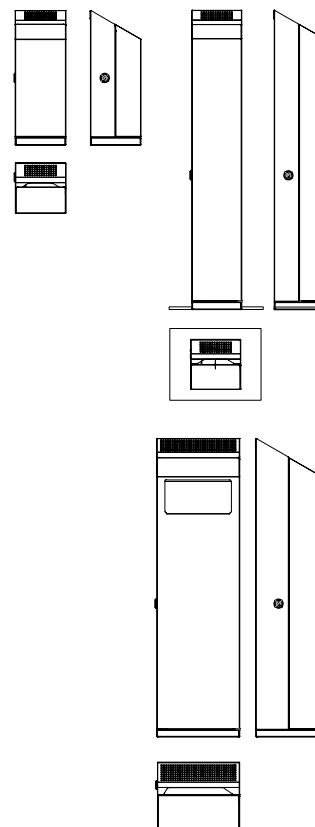

- wall-mounted ashtray version

Colours:

- standard anthracite grey; other colours on request

Optional:

- lock with triangular key
